"AMERICANISM" IS KEYNOTE OF WILSON POLICY

Platform of Party Doesn't
Allow Interference of
Hyphenates.

Can the Kaiser defeat the President? The question is put by the New York Times in this, the most trenchant editorial contribution to the newly opened National campaign: "I do not like to consider the possibility of a hyphenated vote," says George W. Wickham, who is Mr. Hughes' most prominent guide, counselor and friend. Whether Mr. Wickham and Mr. Hughes like to consider it or not, the hyphenated vote is a definite fact that can not be disregarded.

No other issue of the campaign is so vital as the issue that this vote presents. The followers of the Kaiser in the United States have set out to destroy President Wilson politically for the crime of being an American President instead of a German President. They have adopted Mr. Hughes as their candidate and made his cause their cause. They have decreed that President Wilson must be defeated because the foreign policies of his administration are not satisfactory to the German Empire.

German-Americans Endorse Him
"Officials of the German-American Alliance in Chicago had endorsed the Hughes nomination almost before the convention had finished its work. The officers of the German societies in Milwaukee who sent their ultimatum to the Republican party last week are all cordial in expressing their approval of the Hughes nomination."

George Sylvester Viereck, editor of the *Patron*, which is the most frankly disloyal and seditious of all the German newspapers in the United States, declares that—

"The nomination of Justice Hughes means the salvation of the Republican party. It is a triumph of genuine Americanism over nativism."

"George von Skol, one of the most active agents of the German propaganda in New York, is as enthusiastic as Mr. Viereck:

"We are convinced that President Wilson is pro-British, and that is the reason we are going to vote against him. Justice Hughes, therefore, will have the support of the German-American Democrats and Republicans, and I think he will be elected."

Koelbe is Exultant
"Alphonse Koelbe, of the German-American Alliance, who helped to manage the Congressional campaign in behalf of the Gore and McInerney resolutions, is no less exultant than Mr. Viereck and Mr. von Skol:

"I am certain that Justice Hughes will grow as the campaign advances, and that the chances of Mr. Wilson being elected are exceedingly slim."

"Gustav Mayer, publisher of the *German Daily Gazette*, said in a speech at Philadelphia Sunday:

"We suggested some weeks ago that Hughes was the most logical man, and with his selection and that of Fairbanks the entire country will rally to the support of the Republican ticket."

"The editor of the Cincinnati *Volkblatt* says 'the nomination is a splendid one,' and the Cleveland *Wachter* and *Anzeiger* commends Mr. Hughes while attacking President Wilson and Col. Roosevelt."

"We consider it a great boon of the Chicago convention that the people of the United States will not be compelled to choose between the present leader in unneutral subservience to England and the advocate of still greater unneutrality."

Voices Hyphenated Neutrality
"In the opinion of the Cincinnati *Press*—

"Justice Hughes has expressed sentiments which are in accord with the German-American idea of neutrality. We are in thorough sympathy with him and his ideals."

"According to the St. Louis *Westliche Post*—

"The Republican party faced a gigantic problem and found a glorious solution."

In a long editorial the New-Yorker Herald cautions the Germans not to overdo our business and not to make the mistake of working too openly for Hughes. After declaring that 'the overwhelming mass of the German-Americans in the country will fall into line for the election of Charles E. Hughes,' it gives this advice to the German voters:

"We Germans will beware of all mistakes in the campaign. Also not to overdo our business. As far as we can see, there is no necessity for German Americans to work openly in the campaign. We also believe that neither for the campaign nor for the German-American Alliance is it of advantage if they and their branch associations take any kind of position in the campaign. The present election is not one in which the German-Americans can participate as Republicans or Democrats, but that does not include their forming a political party. Such would aside from other severe thoughts, become rather an element of weakness than of power for German-Americans."

Urge Pusyfoot Activity
"We have no reason to suppress the fact that we are for Hughes, and we have no cause to be silent about the reasons that make him for us an acceptable candidate, which reasons are to be found in the anti-neutrality and injustice of President Wilson. An agitation that would enlighten Americans as to these points would be all right, but to go beyond that would be bad."

"Practically all the German newspapers of the country are for Mr. Hughes. All the pro-German newspapers, like *Hearst's New York American*, the *Evening Mail* and the *Chicago Tribune* are for him. The professional German agitators are for him. The German propaganda is for him."

to all civilization that the German vote, and through the German vote the German Government, holds the balance of power in American politics. It would proclaim to the nations that hereafter hope for reelection unless the foreign policy was satisfactory to Berlin and the Kaiser. It would make Potsdam the political capital of the United States, and in its moral effect upon Germany it would be more potent than a great victory of the German armies in the field.

"That is the situation that the American people face. Must their President, in the words of Colonel Roosevelt, be the vicerey of a foreign government? In order to be re-elected? Can a President of the United States be defeated by the Kaiser? Willingly or unwillingly every American voter, be he Democrat or Republican, must vote on that issue when he goes to the polls in November."

Firey Festival in Japan.

Tokio, July 13.—Foreigners witnessed an unusual and beautiful scene this month when 10,000 fire-flies were released at night by schoolchildren before the Imperial Palace in salutation of the Emperor. The children gathered the insects in one of the suburbs, enclosed them in tiny wooden cages and marched to the palace. At a signal the luminous insects were set free flying over the palace—a cloud of bewitching spots of fire. From the ancient palace resounded a court official acknowledged the tribute by waving a paper lantern, bearing the Imperial crest.

HOW RUMORS BEGIN

"What caused the terrific slump in X. Y. Z. Consolidated this afternoon?" "The president of the company abettedly walked into a pawnshop this morning thinking it was the entrance to the store next door. Somebody saw him, and the report got around that he was in financial difficulties."—St. Louis Post-Dispatch.

Work on New Seawall Will Be Begun Soon

Work on the seawall from its present terminus at the boulevard at Seaside park to the southwestern end of Fayerweather's Island will commence within 10 days at the latest, according to word received by the park board last night from the Thomas A. Scott Co. of New London, which will do the work. The huge breakwater is to be completed by September 30, 1917. The employees of the city engineer's office have already laid out the line the wall is to take. When the boulevard is extended a bridge of steel and concrete will be erected in front of the bath houses and bathers will reach the beach through a tunnel similar to that built on the promenade at Revere Beach near Boston.

The board has decided to establish a playground at Old Mill Green on the side of the park nearest the Remington Arms factory. It will be surrounded by a high wire fence like the playground at Yellow Mill. An effort will be made to open the playground next month. Complaint has been made that young men enter the Lafayette street playground in the evening after the children leave and considerable damage has been done to the apparatus there. The matter will be reported to police department with a request that policemen on duty in that vicinity prevent this practice in the future.

The board last night adopted a rule forbidding the parking of automobiles on the Seaside park boulevard within 200 feet of the bathhouse. Automobile owners have complained to the board that they have difficulty in turning their cars at the end of the drive because of the congestion there due to parking. The commission will ask the police board for better police protection at Seaside and Beardsley park during the summer months. A caretaker will be appointed for the golf shelter at Beardsley park. Rules regarding the use of the golf course will be posted in several places in the park.

TROLLEY HITS AUTO.

The left front wheel of an automobile bearing the license number 34346 was ripped off by a trolley car at the Stratford avenue bridge, last evening. No one was injured.

War Department engineers made an unfavorable report on the improvement of the Youghiogheny River, up to West Newton, Pa., at a cost of \$1,050,000.
